

When We Collide

Ab *Cm*
You, you're one of a kind
Ab *Cm*
Me, out of control
Bb *Ab*
Want to rewind everything that happened
Cm
It's nothing new
Bb
Out of the blue we hate each other
Ab
As we're used to

Quiet, just like before a storm starts
Hush now, I can feel my heart drop
In a second, everything changes into something we can't control
Can't you see I am yours now, body and soul? *Fm Cm Ab*

Ref.

Bb
When we collide
Cm
There's nothing left to decide
Am
How these thoughts appear
Bb *Ab*
Like black clouds in the sky
Bb
When we collide
Cm
It's like I'm burning inside
Ab *Bb*
And the words I say, but don't mean
Fm *Bb*
They will hit you where it hurts the most

Wait, please don't go
Save me, I can't be alone
Not like this
It's like you're a different person
You, never seen you so angry at me before

Ref.

Bridge:
